## THE PRESIDENT'S MESSAGE . . .

It is appropriate that for this, the final match of the 1976 season, we should have as our guests our old and friendly rivals from Otago. On behalf of the Management Committee and members of the rugby public of Canterbury I extend to them a warm welcome to Christchurch and I express the hope that the match today between our two teams will be in the best tradition of the close struggles associated with this fixture over the many years since its inception.

With the introduction this year of the Radio New Zealand National Championship, the former series of home-and-away fixtures between our two Provinces was discarded which means that we now have only one opportunity during the season to decide which is the better team. Whilst neither of us has a chance of winning the Championship this year, both will be anxious to hold or improve their present position on the points table and this, together with the prestige associated with a win in this particular fixture, should ensure a game full of interest to patrons.

Since this is the official end of the 1976 rugby season in Christchurch, may I take the opportunity to extend my thanks, together with those of my colleagues on the Management Committee, to the host of people who have contributed to the success of the season. First to the players in all grades without whom there would be no rugby, then to coaches, club administrators, referees, linesmen, ball-boys and, most particularly, the members of the St. John Ambulance Brigade who render such devoted service in all weathers every Saturday.

I also tender thanks to our various sponsors — The Canterbury Savings Bank, for their handsome Trophy donated for competition in the Senior Championship. Radio New Zealand who sponsor the National Championship and make a notable contribution to the promotion of rugby during the season. MARAC, who assist with advertising and sponsor the coaching school for junior players during the May school holidays. And finally, Messrs Fletcher Humphreys who introduced the "Player of the Day Award" which adds considerable interest to the games played at Lancaster Park each Saturday.

This has been a notable year for rugby with the introduction of the Radio New Zealand National Championship and the visit of the All Blacks to South Africa and interest in the game will be maintained for

some weeks yet when another All Black team commences a tour of Argentina shortly.

So we end the 1976 season and look forward to 1977 which promises to be even more exciting and interesting with a visit to this Country by the British Lions on the programme.
